ACOUSTIC PANELS

Prefinished & Prefabricated Natural Timber Acoustic Panels for Walls & Ceilings

GLOSSWOOD®

ACOUSTIC PANELS

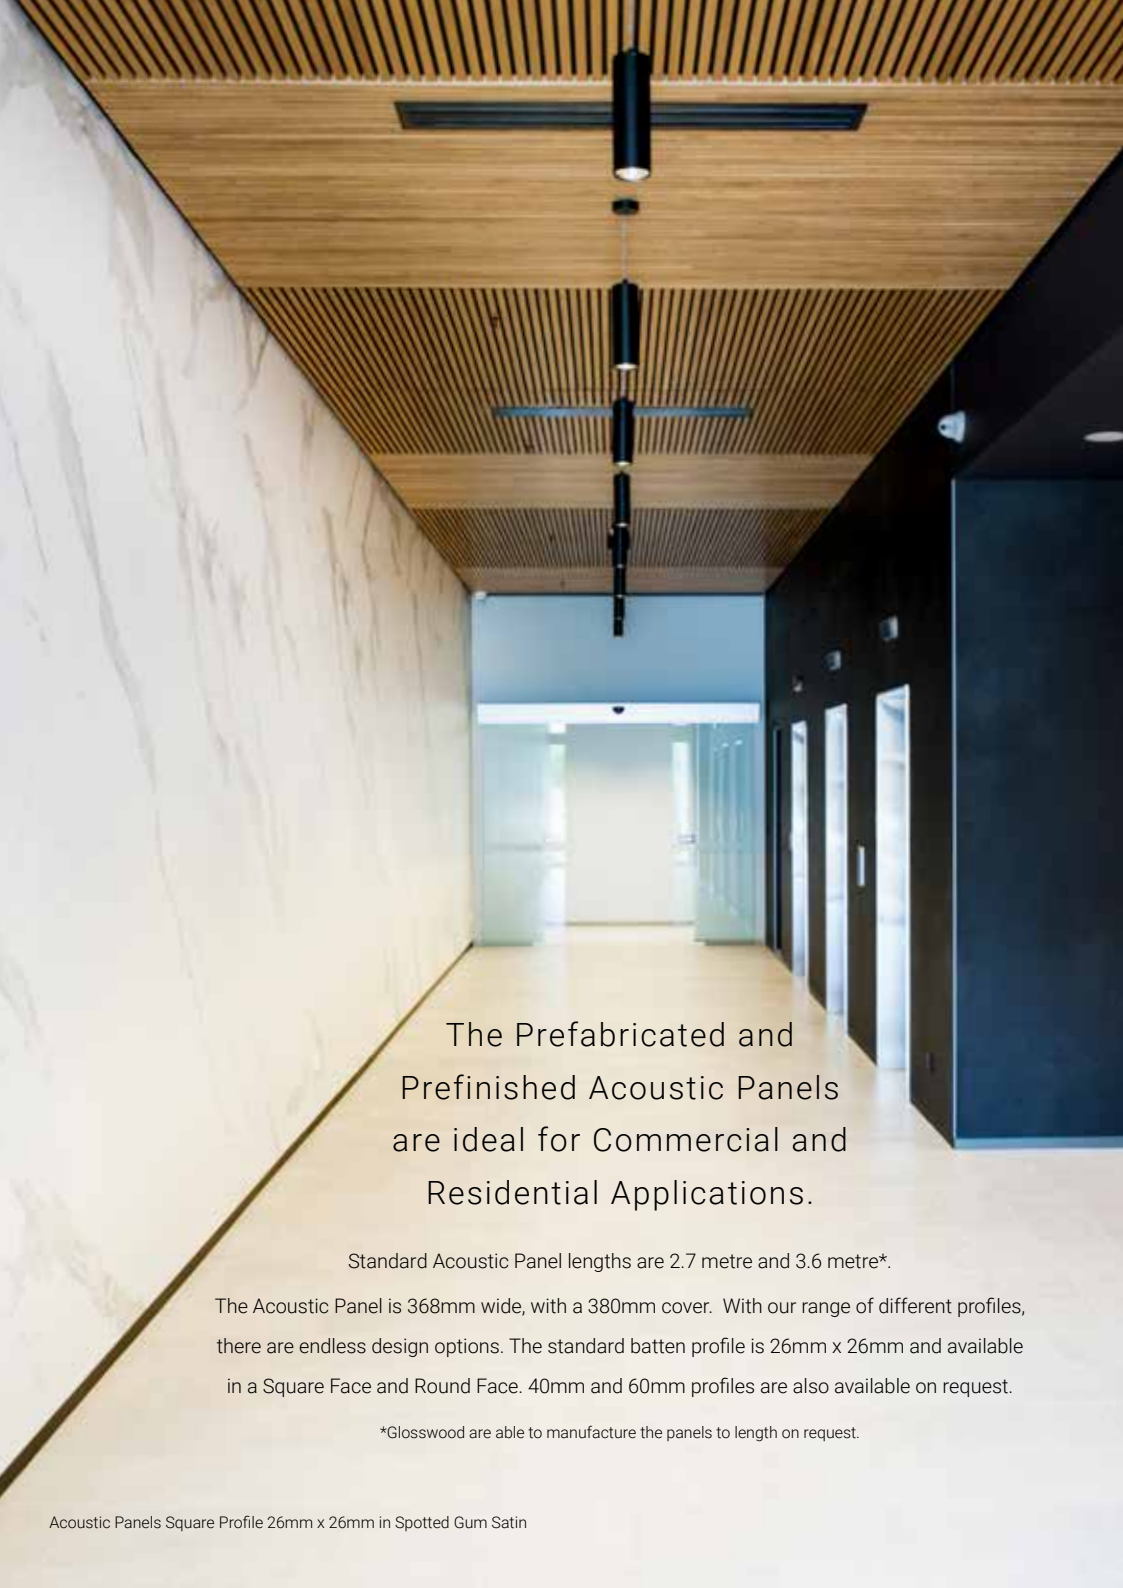

- + NATURAL TIMBER
- + EXCELLENT ACOUSTIC RATING
- + PREFABRICATED - EASY TO INSTALL
- + RANGE OF COLOURS
- + LIGHTWEIGHT PANEL

The Acoustic Panels are made from solid Paulownia timber which is a lightweight plantation hardwood. Glosswood Acoustic Panels achieve exceptional acoustic results, with the highest result of **1.0 NRC rating** (Noise Reduction Coefficient). The Acoustic Panels come in a range of prefinished Matte and Satin colours and are ideal for quick and easy installation.

“ Glosswood Acoustic Panels reduce noise in the interior with the beautiful aesthetic of natural timber ”

Installation Guide, Test Results and Technical Guide are available on our website www.glosswood.com.au

Special requests can be produced on bespoke projects where volumes justify.

The Prefabricated and
Prefinished Acoustic Panels
are ideal for Commercial and
Residential Applications.

Standard Acoustic Panel lengths are 2.7 metre and 3.6 metre*.

The Acoustic Panel is 368mm wide, with a 380mm cover. With our range of different profiles, there are endless design options. The standard batten profile is 26mm x 26mm and available in a Square Face and Round Face. 40mm and 60mm profiles are also available on request.

*Glosswood are able to manufacture the panels to length on request.
