

GLOSSWOOD®

Wave Profile in Spotted Gum Matte

FORM SERIES

Prefinished Natural Timber Lining Boards for Walls & Ceilings

GLOSSWOOD®

FORM SERIES

Concave Profile in Teak Matte

“ Achieve an architectural look with the beautiful contoured shape of the Form Series. ”

- + NATURAL TIMBER
- + PREFINISHED
- + EASY TO INSTALL
- + CURVED PROFILES
- + LIGHTWEIGHT

PREFINISHED Choose from a range of Matte and Satin colours, and install with no sanding or painting required.

EASY-TO-INSTALL The Form Series has a V-joint tongue-and-groove profile allowing for quick installation. The Form Series is available in 2.4m lengths.

NATURAL TIMBER Our boards are made from a sustainable, lightweight hardwood, which is plantation grown and renowned for its beautiful woodgrain. The timber has natural properties that help protect against termites and is dimensionally stable.

The Round profile creates a batten-like effect and has a beautiful shadow-line.
